

# Driving Safety

Information, insights and resources  
to help improve fleet and driver safety

Thanks for your interest in the work we do at AutoSense! In this edition of Driving Safety, you'll find:

- Supporting young drivers — AutoSense partners with Street Smart.
- Coda recognised for leadership at NZ Health and Safety Awards
- Survey reveals gaps in Safe Driving Policy awareness
- One month left to enter the Australasian Fleet Champions Awards

AutoSense is proud to announce our new three-year partnership with the Street Smart programme — helping equip young drivers with the practical skills they need to stay safe on our roads. This partnership reflects our mission to create safer journeys for all road users, by supporting initiatives that build confidence and reduce risk for the next generation of drivers.

## Celebrating industry leadership in road safety

We're thrilled to share that Coda Group has taken out the **Leadership Award** at the 2025 New Zealand Workplace Health & Safety Awards!

Nominated by AutoSense, this award recognises Coda's bold, industry-leading work to tackle driver fatigue and distraction across their logistics network — setting a new benchmark for road safety in transport.

Congratulations to Coda Chief Executive Deena Clarkson and her team for their unwavering commitment to safer roads.

## Survey reveals: Driving risk is the top concern, but most teams need more support

At the Safeguard National Health & Safety Conference, we asked businesses about driving risk – and the message was clear:

- **86%** said driving is their biggest workplace risk
- Only **65%** have a Safe Driving Policy
- Of those, **57%** say their teams need more help to apply it

A policy is only effective if people understand it. We can help review your policy and bring it to life with practical tools that make a real difference on the road.
