

Driving Safety

Information, insights and resources
to help improve fleet and driver safety

Thanks for your interest in the work we do at AutoSense! In this edition you'll find:

- Case Study: How strong driving policies can help prevent tragedy
- Entries open for 2025 Australasian Fleet Champions Awards
- 3G shutdown – upgrade now
- Special offer to celebrate launch of AutoSense Vision camera range
- Driver perspective: Coda's Jarrod Hepi talks about using in-cab technology to improve road safety

Fatal distraction: the cost of looking away while driving

How policy can prevent the next tragedy

When a driver sent 45 Snapchat messages from behind the wheel of her truck before ploughing the 30-tonne truck and trailer unit into a stationary ute last year, the driver of the ute was killed. New Zealand vehicle safety and training experts AutoSense says the tragedy underscores the importance for businesses to have safeguards in place to protect their workforce from more preventable harm on our roads.

The safety business has installed almost 6,000 AI-powered **Guardian by Seeing Machines** systems in New Zealand vehicles...

AutoSense sponsors Australasian Fleet Champions Awards

AutoSense is proud to be the headline sponsor of the 2025 Australasian Fleet Champions Awards, presented by Brake (New Zealand).

"Improving fleet and driver safety is at the core of everything we do. Supporting the Fleet Champions Awards is a natural extension of our commitment to helping

businesses on both sides of the Tasman put driver safety and wellbeing at the heart of their operations,” says CEO Charles Dawson.

Entries are now open for the Awards, which honour outstanding achievements in reducing incidents involving at-work drivers and vehicles – across eight categories.

Is your fleet ready for 4G?

New Zealand's 3G networks shut down on 31 December 2025. These networks are being phased out in favour of faster, more reliable 4G and 5G services.

If you have a Guardian Generation 1 or Generation 2.0 unit in your fleet which needs to be updated, then get in touch with our friendly NZ based support team to organise this.

Making the most of in-cab technology

Making the most of in-cab technology is a shared responsibility between the business and drivers. In this video, **Coda Driver Jarrod Hepi** speaks passionately about this joint responsibility and the proactive measures Coda has implemented with **Guardian and AutoSense Vision (powered by MITAC)** to contribute to safer roads for everyone.

AutoSense enhances road safety for heavy and light vehicle fleets through a comprehensive range of services, including fleet driver training, personalised coaching, driver monitoring systems, and fatigue and sleep consultancy, all aimed at improving fleet safety.
