

4WD VARIED TERRAIN COURSE

4WD – Varied Terrain Course

This one day course will enable an employee to drive a 4WD effectively and safely over varied terrain as may be required in an off-road workplace.

Driver awareness levels, responses to failures, emergency situations and fuel efficiency are looked at and discussed. This provides a clear path towards safe, efficient, low risk driving practices in a 4WD environment.

Who is the course for?

The course is specifically designed for employees that drive a 4WD vehicle for work. Those likely from time to time be required to drive in varied terrain as part of their work task.

Training Day Details

- Up to 12 people can participate per course with a minim of 6 required.
- Timing – One full day plus travel.
