

FLEET DRIVER TRAINING

Tailored solutions. Managed service.

Specialist Skills

If your drivers are needing some support with specialist skills – we can help! Our team can help. We offer driver familiarisation training for fleet vehicles, as well as EV+hybrid vehicles. We also offer Trailer Towing and FWD programmes. These sessions combine mixed media utilising online assessments, practical evaluation and coaching.

Electric and Hybrid Vehicle Training

An interactive practical training session designed to familiarise the trainee with the features and safety considerations when driving your specific vehicle.

- *Format is 3 per group for a duration of 1.5 to 2 hours, delivered at your workplace.*

Vehicle Familiarisation

A vehicle safety walk through, and discussion about safety features specific to your vehicle.

- *Format is 3 per group for a duration of 1.5 to 2 hours, delivered at your workplace.*

Trailer Towing

A practical trailer skills session including reversing, parking, loading and connection points.

- *Format is 3 per group for a duration of 1.5 to 2 hours, delivered at your workplace.*

Four Wheel Drive (FWD)

A full day classroom (theory) and practical hands-on training session for trainees with FWD vehicles that are required to drive off road for work.

- *Format: 8 – 10 trainees for a full 8 hours, set in a purpose built off road environment.*

Community Discussion Groups

It is widely accepted that community groups to discuss an area of risk can dramatically impact safety.

- *Lets us tailor a course to address your specific area of risk.*
